SEA SPEED *Shipping Partner of Choice...*

In April 1985, Sea Speed Shipping was founded in Tehran as the Private Joint Stock Company to offer professional shipping and transportation services with focus on major Iranian ports and terminals. After short span of time, the group's deep expertise and long experience in logistics industry, granted a precious opportunity to provide professional shipping services at a global scale with regional knowledge, through the wide network of own-running branches as well as global trusted partners.

The company continually maintains its values and standards on highly qualified team ensuring to deliver quality services with integrity, consistency, and velocity.

Our customer-oriented culture beside market driven factors, constantly motivates the group to improve the procedures upon customer and market demands.

So, no matter how challenging is your requirements, Sea Speed is proud to be your "shipping partner of choice."

AGENCY SERVICES

Agency Services at Sea Speed dates back to earlier establishment days, when the company was gained reputable recognition by major worldwide owners, charterers, traders, merchants, operator, and principals. Today, our Agency Services is ranked amongst the top Agency Providers in the region, focusing primarily on offering transportation services to oil industry due to exclusive strategic situation of country and the region in production of oil and related products in the global markets.

BULK & BREAKBULK SERVICES

Bulk & Breakbulk Services, in beginning of 2000's increasingly became important due to rising demand for commodities and general cargo movement in domestic and regional markets. Hence, the strategy of company propagated to extend offering services of this type, yielding the representation of several reputable liners and carriers in the region for many years of success.

CONTAINERIZED SERVICES

Containerized Transport Services gradually transpired as dominant transportation and logistics medium, promising more convenient and cost-effective intermodal freight transportation systems. In this pathway, Sea Speed, equipped with latest technologies, together with close cooperation with world top container lines offers the best constant quality services to/from all major global destinations.

AGENCY SERVICES

Sea Speed Agencies with decades of experience within shipping industry has been well recognized for providing distinguished agency services with the most efficient and time sensitive solutions. Being presented in the majority of ports and terminals in the Persian Gulf and Caspian Sea, Sea Speed competently continues to perform all shipping and transportation services in country-side up to any regional reaches. With all available resources and capabilities, today Sea Speed Agency is in perfect position to offer the professional agency services to the major principals, owners and operators with a wide range of services on different vessel's types including: crude tankers, product tankers, gas carriers, dry bulk and general cargo vessels, either as tramp, liner or feeder operations.

BULK & BREAKBULK SERVICES

Due to extensive volume of bulk & break-bulk shipment in the region, our Bulk & Breakbulk Division has been particularly concentrated as part of our major activities in shipping division as well as inland transits services, for many consecutive years.

Being the country agent for many bulk & breakbulk carrier, including the Norwegian-Thai Bulk carrier, THORESEN Line, we have long experience in the operational matters as well as numerous transit projects of cargo through Iran mainland to the Europe and CIS countries.

As a fully integrated shipping provider, we offer solutions for transport of a wide range of dry bulk and break bulk commodities including ore, coal, pet coke, cement, clinkers, bauxite, alumina, concentrates, scrap, fertilizers, grains, agricultural products, forest products, wood pulp, steels, pipes and windmills, in following classes:

Bagged cargo
Bale cargo
Cartons (Cardboard boxes)
Palletized (Wooden or plastic pallets)
Cased goods (Wooden cases)
Drums (Metal drums)
Reels and Bundles (Paper, wire, steel, pipe and etc)
Steel Girders (Steel Rolls)

“ We believe every break bulk shipment requires special attention and proficiency to be carried out, since numerous variety of goods transported in large quantities. Therefore we put our utmost attention to manage the transportation distinctly according to each and every conditions and requirements of shipments.

CONTAINERIZED SERVICES

Sea Speed Container Freight Division offers a full range of global ocean container services, from and to all major port of origin and destination, providing space booking procedures, arranging for pickup and delivery, and managing the shipping documentation.

At Container Freight Services, we handle any type of shipment, from less-than container loads (LCL) to full container loads (FCL), special equipment, and oversized cargo. Depending on the type of products to be shipped or the special services required, the ISO Container Units may vary in dimensions and types, to meet requirements of all kinds of cargo shipping.

Advantages of Our Container Services:

Flexible transit and sailing schedules to/from major ports
Network of consolidation centers to manage cargo flows
Applying new technologies to facilitate booking system
Guaranteed space with major shipping alliances
Ensuring the maximum flexibility in services
Marine cargo insurance services
Highly competitive freight rates

Thanks to advancement in new technologies, we are honored to be pioneer in industry, by increasing the efficiency on entire logistics flow of cargo and bringing more comfort and reliability through online booking system, as our affiliate freight booking partners.

Today, containerized transportation has substantially changed the industry dynamics on basis of key-features of Safety, Rapidity, Economy, and Intermodality. Likewise, we are additionally committed to provide extra features in services, ultimately offering value added services to our container freight partners and customers.
